

Christmas time Again

**We hear the sound of Christmas bells
We feel the biting cold
We see the sights of the dancing lights
And await the fall of snow
Now it's Christmas time**

**Postpone the strife for the silent nights
As all around is peace
We lend a hand to the dying man
And help him to his feet
Now it's Christmas time**

*And millions sing of a baby King
Come to reign on earth
As it's Christmas Day
When we celebrate His birth*

**The Cathedral stands on the white capped ground
We sing the songs sincere
Then it's homeward bound to the party sounds
After all it's only once a year
That its Christmas time again
That it's Christmas time**
