

Wise men still do

**Come and see what God has done
Given us His only son
Come and see the holy one
In Bethlehem
God has come to live on earth
And the reason for His birth
To save the world through pain and death
In His time**

*And Shepherds came to worship Him
Nothing's changed, nothing's changed
And Wise Men gave their gifts to Him
And wise men still do*

**In the sky a brilliant star
Guiding men from country far
With gold and frankincense and myrrh
They seek Him long
To crown Him as their Lord and King
Claim Him as their Sovereign
And give to Him each precious thing
That they did own**

**So come and see what God has done
Given us His only son
Come and see the Holy One
Immanuel
Jesus come to live on earth
And the reason for His birth
To change the world through pain and death
And bring us life**

*And we can come to worship Him
Nothing's changed, He's never changed
And we can give our lives to Him
For wise men still do*
